

Datasheet

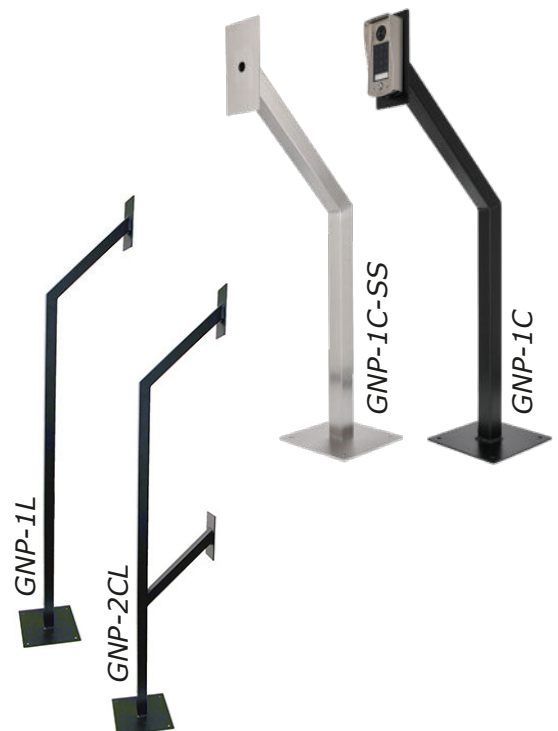

GNP Range - Goose Neck Steel Posts

Product Description

The GNP range are powder coated steel posts meeting car and lorry height specifications at 1m and 2m respectively.

Ideal for mounting keypads, readers, or intercoms, these posts balance aesthetics and practicality. The GNP range is the perfect complement to a wide range of projects in any non-coastal environment. They are the ideal addition to access control systems for car parks, residential complexes, construction sites, and more.

Manufactured in the UK, the GNP can be customised and be sprayed in any RAL colour to suit the needs of your project.
